****Working on behalf of Carbondale's Past, Present and Future****

11-18-86

Dear Margaret & Raymond,

Thank you for renewing, through the Atlantic City Fell Foundation, your membership in the Historical Society for 1987. Thank you, in addition, for your generous tax-deductible donation to the organization. Your generosity and thoughtfulness are very much appreciated.

Sales of the 1987 Calendar have been very gratifying, and it gives me great pleasure to think

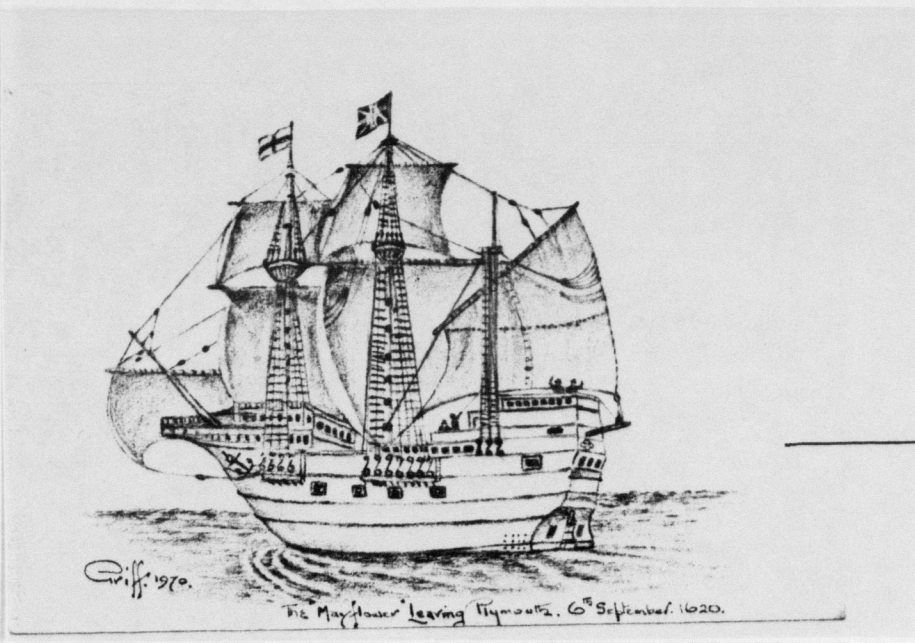

about January, 1987, when a great many people, all over America, begin to actively use their Calendar.

I trust that you both are well. Homes & Golly are busily preparing for the arrival of their first child, which is expected on Valentine's Day.

Sincerely,
 Robert Powell

- Your Christmas Card order was shipped last week; with any luck, you have already received them.

→ and so, two of SRP's ancestors set sail for America: John Alden and Priscilla Mullins.

Carbondale Public Library
 Carbondale, PA

The regular monthly and Annual meeting of the Board of Directors will be held on Tuesday, Nov. 18, at 7:30 p.m. at the library. Please note the new meeting night.

K. Race
 Corres. Sec.

- at this meeting, I nominated Hank Loftus, Jr. to Membership on the Board of Directors of the Carbondale Public Library; he was elected by a unanimous vote
 - I also propose that a substantial sum be included in the 1987 budget for "microfilming of 19th & 20th century newspapers."

J-103
 GLACIAL POTHOLE
 During the glacial period, ice at Archbald was 2,000 feet thick. Waterfalls made potholes by keeping rocks tumbling around depressions. In 1884 the Archbald pothole was discovered. It is about 42 feet in diameter and some 50 feet deep.
 World's largest Glacial Pothole

2,000 feet of ice over Archbald!
 Is it really the world's largest pothole?
